

City of Atlanta

Office of General Services

ACCOMPLISHMENTS

Restroom Supplies

- General Services uses Green Seal Certified towel and tissue products. Paper contains 100% recovered paper fiber, meeting EPA guidelines for post-consumer materials.

Carpet Installation

- For the past 5 years, renovation and replacement efforts have been using sustainable products. Installed Carpet tiles are purchased from manufacturers that certify the material is manufactured wholly or in part from recycled content. Indoor Walking Track is made from 100% recycled rubber tires.

Recycling and Surplus Operation

- Office of General Services staff collects mixed-office paper from City Hall, City Hall East, Municipal Court and AWD for recycling with Pratt Industries, Inc. Benefits of this partnership are that paper clutter is reduced in City offices, we divert waste from the landfill and we provide critical materials to make from recycled products.
